SEASON OPENS SOON BUT PLAYERS ARE NOT SIGNED

INSURGENT PLAYERS ARE STICKING TOGETHER—PENALTY FOR BOOZERS—BIG HOCKEY AFFILIATION—NATIONALS GET TROPHY—LACROSSE STARS TO MIGRATE WEST—HIGH BOWLING SCORES.

(Special Correspondence).

Ottawa, Dec. 19.—Never has such a condition of uncertainty reigned in the Eastern hockey world as while the amateurs appear to be making considerable headway, the professional teams are tied up, and even though the managers are trying to sign their players, the second professional hockey league, a body that threatens to at any moment cloud the sky of the Eastern pro sport, is the impediment that is keeping the players from hooking up, and until this rumor has either been killed, or until it blossoms out, and declares its plans, the hockey stars of the East are likely to remain free lances.

Wanderers at Sea.

Take for instance the Wanderer Hockey Club, the World's Champions and holders of the Stanley Cup, not one man has signed up for the year, and it is doubtful if the owners will be able to persuade several of their high-priced men back into uniform at the salary reduction as proposed by the National Association. The club may be said of almost every club of any prominence, and the only circuit that is having any people on it is the Ontario Professional League, an organization that year in and year out supplies the smaller towns and cities with hockey of a somewhat useful brand it is true, but nevertheless hockey, and that is what the public are willing to see.

Poor Ontario Pro League.

The difference between the Ontario and the National League may be judged from the salaries, the latter being the Ontario League in this regard. The Ontario is something like Class D baseball, and just as soon as a man develops into any kind of a player, he is picked up by the National teams, Albert Kerr, Bruce Ridpath, Wesley Lalonde and other present-day National League favorites being examples of this turn of the cards.

It is said on some quarters that the hockey war is dooming the professional player to extinction, well that may be, but ten years ago, when they played just as good hockey as they do now, and were supposed to play amateur sport, the stars all received their share of the prize money, and as if this will always continue, even if the amateurs do get the upper hand once more.

Insurgents Hold Together.

The one strength of the insurgent players is their combination, which to date is holding splendidly. The first break is apt to cause a stampede in the direction of the National Association, but here there is the weakness of the combine. There is no doubt but that some of the players who are holding out are making a mistake for while they do get their money, would be a charity, as besides being all in, they are added to the doze, one item that is ought to be chided from all training tables. The league will not doubt provide for a penalty for insubordination, and even if these men are taken out, they will soon fall by the wayside, a la Rube Waddell.

Geo. Kennedy's Scheme.

Pastry schemes have been proposed time and again, but with the proposition that is now before the Eastern promoters of the formation of an International hockey league, one that would comprise only the best of the professional hockey teams, the completion of such a project looks to be nearer than ever. Mr. Geo. Kennedy and Mr. Dave Mulligan, who are connected with the Canadian and Ottawa teams, respectively, are very enthusiastic over the subject, and Mr. Mulligan goes so far as to say that the league will be in operation within a year.

The plan is to start the schedule about a month earlier, providing artificial ice where there is not a sufficient amount to show, however, that, as far as big scores are concerned, is not confined to south of the 60th parallel, and high scores are expected when the weavers of the Maple Leaf team in the Buffalo Tournament meet at any of the meetings.

Calls the Wanderers.

Two weeks only separates the fans from the active hockey season, and while affairs are a little muddled, on account of the warring factions, one of the highest hockey authorities in the East calls the Wanderers to retain their hold upon the Stanley Cup, an honor that they won last year in sensational style, their own work, that of the Athletics, pulling them into premier position.

CLAIM HIGH SCORE

Winnipeg Tribune: An article in the Toronto World of Tuesday, Nov. 20, says that the Royal Canadian Lacrosse League credit for breaking the Canadian record of 1,046 for high single point winners are barred from competing for the title.

SPOKANE OR NOT

The scores being compiled nightly at the Olympic All-ies are equal to, if not better, than any in the West, and it is a shame if this city is not represented at the Western Bowling Congress, in Spokane, next March, by at least a five-man team. The material is here and there is no doubt, when the time comes, ways and means will be found to have Edmonton represented. Medicine Hat, Calgary and Lethbridge intend having teams entered, so why not the Capital City of the province?

NEWS OF THE BOWLING WORLD

OLYMPIC LEAGUE AVERAGES—PRIZE WINNERS LAST WEEK—THIS WEEK'S PRIZES

The Olympic League averages, up to Saturday, Dec. 17, show that Walter Blackett is still at the top of the heap. Miller is second place, but his average has dropped a trifle. Kerr dropped from 107 to 104, and is replaced in third place by Simonson who increased his figure from 105.6 to 108.4.

CHILDREN'S AID SOCIETY PRESENTS ANNUAL REPORT

As a result of amendments to the Children's Aid act, which were passed by the legislature, in the closing hours of the session last week, the children's refuge which is maintained in Edmonton, will henceforth become a regular charge on the community, instead of a tax on private benevolence, as it has been to a large extent in the past. The amendments provide for the maintenance of the home, and the children's aid officer, by the city. The position of children's aid officer may be maintained in conjunction with that of transit officer.

Since the establishment of the home in Edmonton a year ago, the council have granted but \$200 towards its maintenance. The total outlay has been \$294.05 to the end of November, and the balance from the grant given by the city council, has had to be raised by private subscription. Now the city will be required to provide for the whole cost.

New Home Needed.

The absolute inadequacy of the present children's refuge at 47 Cameron street, and the urgent need of a new home constructed along modern

and absolutely sanitary lines, is set forth in the annual report of the secretary of the children's aid society, which is to hand, and which also contains expert reports upon the epidemic which recently caused the death of nine infants in the home. The medical reports set forth that in spite of all the efforts of the agent and the matron, the building itself was unsanitary, and a new building was an immediate necessity.

The following is the first annual report of the secretary of the Children's Aid society of Edmonton and Strathcona:

The first annual report of the secretary of the Children's Aid society of Edmonton and Strathcona was organized at a public meeting of the citizens of Edmonton and Strathcona held in the Y.M.C.A., Edmonton, on Dec. 10th, 1909. At this meeting twenty-nine persons joined the society.

The first work of the society was the compilation and adoption of a constitution in conformity with the Children's Protection act of Alberta and the regulations necessary thereto

for the proper administration and government of the society.

Previous to the organization of this society similar work was carried on by the Edmonton Cretche association. This association has since amalgamated with the Children's Aid society, turning over considerable furniture which has been placed in the Children's Home. Owing to causes not yet ascertained by the society, the day nursery work has completely fallen off since the amalgamation and has been the subject of considerable criticism from the women of the board.

The Shelter.

The Children's Shelter was first established on Heinicke street in the home of R. S. Webb who was engaged as the agent of the society while his wife was engaged as matron. Ten children were transferred from the nursery of the Edmonton Cretche association and passed under the control of the society.

The house on Heinicke street was but a temporary shelter and efforts were made to secure a home more suitable to children's work.

The house at 47 Cameron street was selected as the best available since last March.

Maintenance.

The estimated cost was placed at \$263.69. The actual cost has been \$294.05 to end of November.

Her Face and Body Were

Littered Covered With

"BOILS."

Burdock Blood Bitters

Cured Them.

Mrs. John H. King, Johnston, N.B., writes: "Last summer I was very much troubled with boils, and my face and body were literally covered with them. A friend advised me to take Burdock Blood Bitters. I got three bottles, and before I had taken all the first one my boils began to go away. I had just taken a few doses out of the last one when they all disappeared. My husband has also used Burdock Blood Bitters with much benefit."

Boils in themselves are not a dangerous trouble, but still, at the same time, are very painful. They are caused entirely by bad blood, and to get rid of them it is necessary to put the blood in good condition, and for this purpose there is nothing to equal that old and tried remedy, Burdock Blood Bitters. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

THE EDMONTON CAPITAL

The city council of Edmonton granted \$2,100 and the city of Strathcona \$200 per year, leaving \$1,424.05 to be raised by private subscription. Total receipts have been \$3,726.02.

Work Accomplished.

Total number children dealt with at Edmonton C.A.S. Jan. 1 to Dec. 31, 1910: 136; for adoption 61; boarded 75; delinquents 20; male 95; female 64.

The children were disposed as follows: Adopted, 43; returned to parents 12; sent to hospital, 6; sent to industrial school, 6; sent to convent, 12; still at shelter, 17.

By far the greater number of the children were very young, 38 out of the 136 being under one year and only four being over 16 years. Out of the 136 cases dealt with by the society it was from outside points, mostly transients en route to foster homes.

The agent of the society reported 38 cases of delinquency and family depravity. After investigation 30 of these charges resulted in conviction and action as shown in the following summary:

30 Charges investigated. All convicted: 2 boys sent to industrial school; 24 boys and 2 girls released on probation; 1 man interdicted and children removed; 1 man fined \$5 and costs.

Medical Assistance.

The members of the medical profession of the city have been most generous to the society. They have all given of their services when asked and rendered indispensable assistance in the administration of the work.

During the months of October and November nine deaths occurred among the infant children from some unknown disease. As many as six physicians were called in consultation. The clinical history of the disease was carefully studied and two post mortem examinations were made but no decision was arrived at by the doctors with respect to the specific cause of death or the true nature of the malady. This crisis was regarded very seriously by the board and a trained nurse was immediately put in charge of the shelter and everything as far as possible was done to improve the sanitary conditions of the house and check the spread of the disease. Considerable friction followed between the nurse placed in charge and the matron, Mrs. Webb, with the result that the board considered it necessary to have the shelter in the interests of the children and the society that the matron and the agent should be relieved at once from their duties. Since the first of November the shelter has been in charge of Miss Miss Cooper with one assistant and one servant and an orderly. The work of apprehending cases of neglect and delinquency has since that date been done by the police department of the city of Edmonton.

Physicians' Report.

As the occurrence of this epidemic has aroused considerable interest in the community the board have considered that in the public interests and in their own interests, the reports of the provincial bacteriologist, Dr. D.C.

HAD KIDNEY TROUBLE.

COULD NOT CROSS THE FLOOR
PAIN WAS SO GREAT.

Miss Hazel Hess, Winchester Springs, Ont., writes: "I was troubled with my kidneys for five years. They were so bad, at times, I could not cross the floor for the pain. The doctor could not do me any good and a friend advised me to use Doan's Kidney Pills. I bought six boxes and now I have been cured for over four years. I will recommend them to every sufferer."

No woman can be strong and healthy unless the kidneys are well. When the kidneys are ill, the whole body is ill, for the poisons which the kidneys ought to filter out of the blood are left in the system. Then how important it must be to see to it that this system of seepage be not clogged up.

Doan's Kidney Pills are a purely vegetable medicine, realizing quick, permanent relief without any after effects. A medicine that will absolutely cure backache and all forms of kidney trouble.

Doan's Kidney Pills are 50c. per box or 3 for \$1.25, at all dealers or mailed direct on receipt of price. Send 2c. to Milburn Co., Limited, Toronto, Ont.

If ordering direct specify "Doan's."

Revell, and the physician in charge of the shelter at the time of the crisis, Dr. F. J. Folliott, should be published. The following are the reports: 1. Provincial Laboratory, Edmonton, November 2, 1910.

R. B. Chadwick, Esq., Sup. Neglected Children, Edmonton.

Dear Sir:—Regarding the cases of illness and deaths at the Children's Shelter in this city, I beg to report:

(1) Dr. J. F. Folliott brought me a sample of milk from a nursing bottle of the last infant that died. Examination was negative for any definite cause of sickness.

(2) Dr. Boyle also brought swabs and specimens from a post mortem on this case. These showed the presence of bacteria in the tissues and serious fluids of the body. These organisms may have invaded the body after, or shortly before, death, and may not have been the primary cause of the sickness. It is not uncommon for bacteria to be introduced into the system near the end of a debilitating or fatal sickness.

(3) A bottle of the milk used for feeding the babies was brought to the laboratory for examination. It contained no formulae, boric acid, or other preservative. It contained considerable sediment and did not make a very good showing under the fermentation test with reference to bacterial content.

(4) On Friday the 28th, in company with several other physicians, I visited the shelter and saw several of the babies one of whom was sick. I would strongly urge the necessity of making provision for the care of the sick babies entirely apart from the well. The latter seem to be very well provided for at present, except that they are in contact with the sick. Infants are very susceptible to infections and it is therefore very desirable to avoid exposing them to the possibility of such; and especially should they be segregated from sick babies. I think it is strongly advisable that all applicants for admission to the Children's Shelter should undergo thorough medical examination and accordingly be assigned to the group of well children or to the hospital division. This latter, of course, should be in charge of a trained nurse.

As to the cause of death in the group of related cases, I think it probable that in each instance the illness began as a toxæmia, or poisoning from substances formed in the alimentary tract. This so lowered the natural resistance powers that bacteria soon easily invaded the body and set up a septicæmia which was rapidly fatal. There may also have been introduced, by the first sick baby, a particularly virulent germ. The virulence sometimes increases from case to case, in other instances it is lessened.

Yours obediently,
(Signed), D. G. REVELL,
Edmonton, Nov. 10, 1910.

Mr. Alex. Stuart, R. C. President Children's Aid, City:

Dear Mr. Stuart,—In reply to your letter of yesterday, concerning the recent illness and deaths occurring at the Children's Shelter in this city I beg permission to submit the following:

In all cases eight deaths have resulted since Sept. 3. These were all amongst the bottle-fed children. The first death occurred Sept. 3rd. This was a case of simple mal-nutrition. The illness extended over a considerable period of time, during which the child had been under the care of several different nurses.

THE RIDICULOUSNESS OF THE ASSESSOR'S CONTENTION

According to an interview given on by City Assessor McMillan on Saturday he has the right, the authority, the power and the determination, and is aided and abetted by Mayor Lee in the intention to absolutely set aside and nullify the amendment to the city charter which gives tenants the right to vote.

Assessor McMillan constructs the law to read that he is entitled to charge every man who applies for a vote the \$3 poll tax or the \$3 householder's tax. The assessor claims that the poll tax has not been abolished but merely allowed by common consent of the city council, to lie dormant. That is to say, that the city still has the right to impose the tax, although it is not doing so. From this the assessor argues that he, as a city official, without any order from the council or anyone else, to levy the tax and enforce its collection.

The idea that an assessor, a servant of the city, employed to carry out the bidding of the city council, can, merely upon his own caprice, say what taxes shall be collected, and what not, what names shall go on to the voters' lists and what be left off, what laws of the legislature shall be enforced and what set aside, is as startling as it is new.

To the tenants who have been fighting for years for the tenants' franchise and who have secured it, not with the aid of the mayor and the city council, but in spite of them, it will be a painful surprise to learn that there is in the city hall an employee who imagines that he can bark the will of the legislature and of the people, by giving a twist to the law which it is no part of his duties to interpret, let alone set aside.

The whole thing is so manifestly ridiculous that the assessor, if he had a grain of humor in his composition, would laugh himself into helplessness at the ludicrousness of his own position.

THE COST OF WAR IN TIME OF PEACE

The war department of the United States has asked congress for two hundred and five millions appropriation for the year 1911.

This is a time when the great republic to the south is not engaged in any war and where there is not a war cloud in the sky. It is the war expense on a peace basis of the most peaceful nation in the world.

When it is considered that every dollar of this money is spent for non-productive purposes, that every dollar of it is taken from the legitimate industries of the country, that thousands of men are taken from useful toil to make up the army and navy which this money will provide, and when it is recognized that United States is one of the most frugal nations in the world in the matter of army and navy expenditures, some idea of the terrible cost to the nations of the world to keep up the war equipment which the military spirit calls for may be gained from the figures.

A NEW FIELD OF ENDEAVOR

There are one hundred cities in United States in which the administration is in the hands of a commission, and in not one of these has the commission form of government proven a failure.

Here, then, is an opening for a new line of education, a new field of endeavor calling for special endeavor.

In law, in medicine, in theology, and in all the applied sciences there are colleges and technical schools at which the aspirant who desires to enter the profession may be trained. Civic government, by the adoption of the commission system, is becoming an exact science requiring special training. The day when any old nominee of a political machine was considered competent to conduct the government of a city has passed, never to return, and the whole cry now is for trained and experienced men who can get value for the tax-payers' money.

It is early yet to consider it, as the public mind on such things moves slowly, and the educational institutions are slower to take up such innovations, but the day is certainly coming when the big universities will have branches of studies for the students who wish to study the science of municipal administration, and when a city which requires a commissioner will look for one properly qualified and certified, just as a city now looks for a medical health officer or a city solicitor among the men who can show that they have given years of their life to study of the lines in which they are required to serve.

WHO HAS THE REAL RIGHT TO VOTE?

When the city assessor and the mayor are considering ways and means of rendering impotent the legislation which gives the tenants the franchise, here is a thought which may have occurred to them but is nevertheless sound.

In the case where a tenant rents a house, it is generally admitted by fair-minded persons that the tenant is the man who pays the taxes in fact, although he may not be the party who places the money on the counter. The fundamental principle behind the tenants' franchise is that, inasmuch as the tenant pays the taxes, he should have the right to say how the money should be spent.

As the money cannot be taken from both the tenant and the landlord, it is a prima facie case that only one is entitled to the vote by virtue of that payment. In other words, the resident and the owner who is not a resident on the property cannot both be entitled to vote by virtue of that one payment of taxes.

This being so, it is apparent that if there is any question as to who should have the right to vote, it is not the landlord who can show the best claim, but the tenant.

To be perfectly fair the law which gives the franchise to the tenants should have gone farther and required a residence clause from the property owner. In the case where he was a property owner in one part of the city and a tenant in the other, it is the right as a tenant that should give him the vote, and not the right of ownership of property which he rents to some one else. In other words, the principle recognized so generally in British cities that the tenant rents the right to vote along with the property should hold here in Edmonton.

At confederation Quebec had 65 members out of 181, approximately 36 per cent. Now she has .5 members out of 221, just about 23 per cent. Here is a problem for the arithmeticians: Is Quebec losing or gaining in proportionate representation as she increases in population.

Here is a guess on the location of the experimental farms: Vermilion, Gleichen, Sedgewick, Olds and Sturgeon. Play the whole combination straight up.

The British idea of an election seems to be to extend the agony just the same as in cricket.

THE FLOWERING.

When time strides past the century
Two thousand Anno Domini
And molds a new humanity.

How will it write the laws of trade,
That the founders thereof laid
Shall hold a manhood unafraid?

A manhood and a womanhood
To be earth's glorious afterlife
To song that breathed creation's

When life of one is life of all,
A beauty holding such in thrall
The earth shall answer hoarse call:

Under the heart-made, kinder sky
The millions shall not faint and die
Slain by a ruthless tariff lie;

And none shall bend a cowering knee
To win a master's clemency
Who holdeth lands and souls in fee.

Nor from an unpious thievery
Shall come a pious charity—
For fraud and need have ceased to be;

Nor diadem shall decorate
The servant of the equal state—
Ruling by grace of men as great.

When shines at last the equal day
Whereat mankind has groped its way
The spoiler's palace shall decay:

The vanished, cruel lust of gold—
The dim perspective of the old—
Leaves all the gifts of God unsold.

So, is beginning of the end—
For all, shall man to fragments rend
Of laws that do not man defend;

The smothered in the selfish breast,
Yet ever to the soul address,
This is the ultimate human quest:—

For God is not, if earth be given
To man, and this restless heaven
Unless in earth and soil be heaven.
A. B. CAVANESS.

SNOWS GRUBS IN CONN.

Winsted, Conn.—Abram C. Shelby, an aged and sturdy member of temperance party, while walking along Torrington street this morning in a snow storm, saw hundreds of live grubs on top of the snow. He gathered a handful of them and brought them to Winsted to corroborate his statement. In a warm room the grubs appeared as lively as in the summer.

THIEVES KILL RICH WIDOW

Sisterville, Va.—Three prominent residents of this county are under surveillance in connection with the murder and robbery of Mrs. Elizabeth Allen, a rich widow, according to Prosecuting Attorney Moore. A verdict of murder was rendered in the coroner's court by the jury. Mr. Moore said the robbers got \$2,000.

THE MAN AND HIS PART

(From the Kansas City Star)
Let it be hoped that the time will never come again when men will have to be sacrificed by tens of thousands on the field of battle. The chances of war are growing less. But if countries should need defending the men who would be ready for sacrifice are not less strong even if war is less justifiable than in former times.

The demands of peace are constantly growing greater. This applies to nations to states, to cities and to individuals. It is the progress of the possibilities of making it better and keeping it up to a high standard of efficiency, more and more an average well-being become larger and the obligations correspondingly stronger. Knowledge begets responsibilities. Demonstrated science demands application. Proved principles demand adaptation. Progress begets progress. An age that does not mark progress is an age that has relatively failed.

The invitation to collective and individual endeavor is particularly strong at this time. In this country especially there has been a sharp awakening to the higher ideals of life—social, political, governmental and business. The agencies and energies now intelligently progressively enlisted in the scientific and practical treatment of the problems of the times are greater than ever before and more effective. The field is broad and is variously subdivided. Those engaged constitute a large number of professionals, more or less expert, and a vast army of auxiliary volunteers, men and women. They are looking into conditions, diagnosing evils and applying remedies. Nor are they content with corrective measures, they are as enterprising as they are reformatory. They are promoters of the public weal. Some are visionary, but collectively they are informed, practical and potential.

With these original and organized agencies at work and full of accomplishment, with more to do than ever, the best and the most interesting army of thinkers and workers can perform, with money and service needed in many directions, the field is especially inviting to all who may wish to enlist the public welfare movement or contribute in any way to its progress. The obligations to participate in this movement are especially strong with those who have prospered and who have money or leisure or both. Success is not

merely a reward, no matter how liberally it may have been earned, or how hard labor it is, in a measure, an extension of credit, for it imposes obligations on the one who achieves it. The man who succeeds owes much to society, to the government, to business conditions, and to such other conditions, as have made his success possible, and he is especially in debt to the community that has prospered him.

But service as well as money is needed, and there are few who can not give some kind of service. The man who is alert to the time, grasping nothing of the great things that await accomplishment, seeing clearly the local opportunities to further the general movement, is not at a loss to know how to contribute his service, but which method to choose. He is not at a loss for something to do, but sees how little, after all, he can do of all that there is to be done. But the wisest of men can find some time to reciprocate the favors under which he has prospered. And no man should be satisfied with the routine of meeting his legal obligations. It is not sufficient to live a negatively good life, to pay your bills and keep out of jail. Something must be done for the country, the state, the community in which you live. And the only thing that can be done, the doing of which makes a man better and makes society better is the voluntary service—that which is given, not paid; and yet it would be hard for a man to give more than he owes, for in the final analysis he owes to something other than his own energies everything he possesses beyond a nominal success.

\$205,000,000 FOR WAR.

The United States War Department asks \$205,257,546 in this year's estimates. Among the items are: Increase in the navy, \$23,940,000, including \$12,800,000 for construction and steam machinery and armor and armament in the proposed building program for 1912 and \$400,000 for armor on the outfits of vessels, heretofore authorized, \$30,178,000 is asked; for submarine torpedoes and sub-surface destroyers \$890,834. An estimate of \$241,000 is made on account of two fleet colliers already authorized, and it is pointed out that in order to construct a collier on the Pacific coast in the government yard Congress must increase the limit

of cost of the second collier from \$1,000,000 to \$1,500,000.

A lump appropriation of \$1,000,000 is asked to enable the secretary of the navy to establish at such places as he may deem necessary suitable depots for coal and other fuel for the purpose of warships. The estimate for naval barracks and quarters in the Philippines is \$600,000, in place of the present appropriation of \$375,000, and \$2,000 is estimated for wireless experiments in the Philippines with a view to a system having relation to the navy, navy Philippine government, and the commercial community. For dummy guns and mortars for instruction of the guns and mortars for instruction of the coast artillery \$300,000 is asked. For a torpedo station "near the Pacific coast" \$25,000 is asked in

addition to the \$145,000 appropriated for this year.

CALGARY FAVORS 6 TEAM LEAGUE

PRESIDENT MIDDLETON SAYS
IT LOOKS LIKE OLD CIRCUIT
BRANDON AND PEG OUT

Down in Calgary the baseball magnates think that a six team league consisting of Calgary, Edmonton, Lethbridge, Regina, Saskatoon and Moose Jaw looks like the one best bet for 1911.

In the course of a letter to the Sporting Editor of the Capital, President Hal Middleton of the Calgary Baseball Club, says:

"There is little that can be said on the baseball question at the present time, and it is a matter that will have to be pretty well discussed at the meeting in January. The idea of an International Circuit will have to be considered as that Circuit has been completed and the Clubs organized in that territory.

There seems to be nothing to view but a six club circuit comprising the teams of last seasons League, with the exception of Winnipeg and Brandon. I think that such a circuit properly organized and the salary fairly properly adjusted would prove successful.

A JOB FOR MCCLOSKEY

The St. Louis correspondent of Sporting News, says:

"Good scouts are about as scarce as good managers. The winning teams in the two major leagues have efficient judges of young ball players working for them—uncovering these valuable youngsters year after year in the brush. John McCloskey, former manager of the Cardinals, is looked on as a smart man at picking up kid stars and it would not surprise at all if Mr. Hedges handed Mac for the job. At present, McCloskey is devoting his attention to the organization of the new Union Association, out West, and is in line for the management of one of the teams. But Mac would be likely to draw down more money for acting as regular Brown scout than for managing in a brand new league, where money isn't going to grow on trees for a year or two at least."

LISTEN TO THIS

"The first thing Bill Curney knows they will be running him for mayor of Calgary. They would have Bill give Seattle the go-by, live in Calgary the year round and draw his salary every month instead of just for the playing season."

PORTUS DAXTER.

SLIM IN LIMELIGHT

Slim Dell seems to be the object of much curiosity these days by American fans. The following news inquiries are called from Sporting News:

"Reno, Tex.—Where are Dell and McGeehan of the Cardinals from, and what positions did they play?"

Dell was a pitcher at Edmonton, Can., and McGeehan a second baseman at Wilkes, S.C.

"New York, N.Y.—Where and what positions did Houston and Dell, now Cardinals, play last season?"

A READER.

Houston does not belong to the Cardinals. Dell was a pitcher for the Edmonton, Can., team.

Note.—The Houston inquired about is Sammy Houston, who Regina and Edmonton last season. Sam, who was the property of the Des Moines club, was said to have been drafted by St. Louis.

WHEN LARRY RETIRES

The Instant the American Gets Too Fast for Him, He Will Quit Entirely.

Larry Lajoie, Cleveland's premier second baseman, has just announced that he will stay in baseball just as long as he stays in the big league, and no longer. None of the quasse baseball players for the mighty Frenchman when his ability begins to wane. Lajoie's batting average for the 15 years is .340. In order to get these figures Lajoie has cleared out 2,456 hits in 7,027 times at bat. As Lajoie has only fallen under the 300 mark in hitting in two years of the 15, it isn't hard to see how he gets his grand average of .340.

If the Frenchman's figures were carried into the thousands, he would have a "7" added to his .340, making the average read "3.47." This shows how near the pride of France comes to having an average of .400.

Of his 15 years of big league ball playing, Lajoie has played 10 years in the American league. Last season he hit for .384, a percentage which he has exceeded only twice before, in 1904, when he cleared for .422, and in 1904, when he hit for .391. Accordingly, it doesn't look as if Lajoie were "going back" just yet.

SOME AMERICAN DOPE

This is the way a football championship is figured out across the border:

"Thursday's victory of U. C. over Denison, the greatest triumph since Cincinnati defeated Dartmouth years ago makes it possible for the first time to dope out the claim that Cincinnati is one of the strongest teams in the country. Of course no one believes that Cincinnati eleven could not up Harvard or make a meal of Yale, but it is possible to figure the 'dope' so as to make a 'national championship' showing for Cincinnati. Requisites: "Cincinnati" defeated Denison. "Denison" tied Ohio State. "Ohio State" tied Michigan. "Michigan" tied Pennsylvania. "Pennsylvania" defeated Brown. "Brown" tied Yale. "Yale" tied Harvard. "Therefore Cincinnati is equal to Harvard and Yale the season of elation would say. But football dope is not quite as scientific as algebra."

Charlie Street, the Washington catcher, has been troubled with rheumatism and will go to Hot Springs soon to take treatment for his lame arm to be ready in time for the opening of next season's campaign.

Hughie Jennings is getting to be a regular Barney Oldfield from latest reports. All the Tiger manager cares to talk about this winter is auto racing and for he has been in the cockpit with the gas wagon bug.

Pitcher Burns of the Reds has been placed on the market for sale. Burns is the pitcher who held the Cubs to one hit in Chicago last season. From several minor league clubs has come the word that they don't want him, inasmuch as they say the won't work and that he sleeps over between the innings of a game in which he is working.

Larry McLean stole four bases last season. That's about three above the Larry's usual average.

CHILDREN'S AID SOCIETY.

(Continued From Page Three)

eral medical men.

The cases to which you allude in your letter, number seven in all, commencing on or about the 13th of October. Some days previous to this the dietary of the children was changed from Horlick's Malted Milk to that of the Edmonton City dairy. Changes of this kind were frequently made by the matron as she thought wise. She was the only one to note the symptoms that would indicate such a change. The medical staff had to be guided by her report in the majority of cases.

The first death occurred Oct. 13th. The illness was acute, the child dying in forty eight hours with no symptoms that pointed to any one disease. The second death occurred the following day under similar circumstances.

On my suggestion and at the request of Mr. Chadwick a post mortem was held to determine the cause of death; the examination revealed no pathological condition except that the stomach and intestines showed marked signs of an acute gastro-intestinal infection previous to death.

The milk of the said dairy was sent under seal to the provincial bacteriological and reported upon as unfavorable for bottle fed children and at this time its use was discontinued. Attempts were made to obtain other milk but some days elapsed before it was obtained and reported upon favorably; in the meantime malnutrition was used with some improvement in the condition of the children.

Two days later the third child began to show similar symptoms. Dr. Gillespie, Boyle and myself met in consultation and discussed the case. The child died the next day. Post mortem performed by Dr. Boyle at request revealed nothing further than in the previous case. Specimens were sent to the provincial laboratory for examination. No poison was found in the stomach contents by analysis.

Next day Drs. Revell, Macdonald, McGarr, MacDonald and myself met in consultation on the remaining children. The cases were examined and the previous deaths discussed. The result of the consultation was: "That the children came to their death from the development of an acute toxemia or blood poisoning due to the accumulation of toxins in the blood, probably originating from an acute infection of the gastro-intestinal tract."

Now, after the sixth child, suddenly developed symptoms of bronchitis, passed rapidly into pneumonia and died on the second day. Nov. 4th the seventh and eighth children developed similar conditions and died in eight and twelve hours respectively. These children were regarded more as a terminal condition than as the primary cause of death. Drs. Allan Macdonald, Boyle and myself saw these last children in consultation and came to the same conclusion as formerly. During the last two or three days of illness other dairy milk was used first having been reported upon favorably.

Regarding the unsanitary condition of the home, I must say that I found it very unsanitary at all times in respect to bottle fed children. This condition was not the result of carelessness on the part of those in authority but due rather to the unfavorable condition of the building used and more especially to the lack of trained assistance and accommodation. I am of the firm opinion that those in authority did all in their power to keep things in a sanitary condition, but I firmly contend—and my contention is supported by the sanitary arrangement of this kind of a home that trained assistance be in the employ, and under any other conditions no matter how conscientious may be the service of those in authority, the tendency is to have just such a state of affairs as has existed in the Children's Shelter in this city formerly.

Intentional children of this kind are especially prone to epidemics of disease and malnutrition, further that the scientific means can accomplish, otherwise the results are often unfortunate as has been shown by the recent high death rate amongst the children here; hence mentioned.

Hoping this will be satisfactory, I remain, Your obedient servant,
(Signed) F. J. POLINSBEE, M.D.

ness other dairy milk was used first having been reported upon favorably.

Hoping this will be satisfactory, I remain, Your obedient servant,
(Signed) F. J. POLINSBEE, M.D.

The experience of the executive during the last year has amply demonstrated the presence in the city of a social problem of grave importance which imposes an obligation upon our citizens that cannot be ignored. It is gratifying to know that this obligation has been acknowledged by the legislature of the province and the city authorities, whereby the Children's Protection Act has been amended to include this work as a regular charge of the community and not a tax on private benevolence.

The present home is quite unsuited to the proper upbringing of children. A new home planned specially for institutional work has become a necessity in Edmonton.

N. C. R. BRANCH OFFICE

A. E. McLean Opens Office at Jasper Avenue and Does Rushing Business.

A branch office of the National Cash Register company, of Dayton, Ohio, is being established in the city by A. E. McLean, who will in future reside in the city as the company's agent. His office it at 236 Jasper Avenue west.

Mr. McLean is now installing some of the handsome new electrically operated cash registers, the first to be installed in the west. Some of those who are installing these machines are R. C. McDonald, of the Yale, the Dominion Cigar Stores, and others.

AT THE THEATRES

A BIG EVENT

One of the biggest events that has ever taken place at the Empire will be the big production of Geo. Ade's biggest success "The College Widow," which will be presented with all the necessary scenic and college effects as it was presented in New York City, under the direction of Geo. Ade himself. "The College Widow" is a play depicting college life as it is today. A pretty little harmless plot, good comedy, interspersed with a neat little love story. A famous crack ball back that is to play on an opposition college team (that his father has endowed with numerous buildings) is the centre of attraction, and is persuaded to desert his team and play on the team that is the college widow's choice, consequently the team that he plays on wins the game. Miss Alice Kennedy, the petite little leading lady of the Partello Company will be the second leading lady in "The College Widow," a title bestowed on her

JACK WESTERMAN

As Billy Bolton, in The College Widow at the Empire Tonight.

The students, Jack Westerman as Billy Bolton, the crack halfback, cast in a part that every one of his many admirers will like. Mr. Edwin Hall, the new leading man, will again be seen in a part that will give him a chance to work his way deeper into the hearts of his already many admirers and friends. Note: "The Esquimaux" rugby team will positively appear at every performance in full fighting tones, and we feel sure that their many friends will want to see how they look behind the footlights, and any that has never seen them immediately after a game will have a grand opportunity to see just what they look like. "The College Widow" will be presented tonight, Tuesday, and Wednesday nights, and a special Wednesday matinee, December 19, 20 and 21. Alberta College, also Strathcona University will attend in a body tonight.

MORE RAILWAYS FOR CANADA WEST

Ottawa, Dec. 16.—A total of 519 more miles of railway was put into operation in the four western provinces during last year, and this does not include the Grand Trunk Pacific. This is according to the annual report of J. L. Payne, controller of railway statistics, which was tabled in the house today.

Railway mileage of the dominion increased from 24,104 in 1909, to 24,731 in 1910, an addition of 627 miles. Of this increase, 519 miles were in the four western provinces. These figures do not include and mileage attaching to the Grand Trunk Pacific, which is officially regarded as "under construction," although over 1,000 miles were in actual operation during 1910.

It is estimated that 4,500 miles of railway were under construction on June 30 last. During the year 779 miles of second track and 344 miles of yard track and sidings were made available.

During the past four years there has been an increase of 2,277 miles of main line track, 470 miles of second track, and 1,063 miles of yard track, a total of 3,810 miles.

During the year, \$101,816,721 was added to capital liability, bringing the total up to \$140,392,087, of which \$88,453,749 was represented in stocks and \$52,938,338 in bonds. Actual outstanding liability on June 30 last, after eliminating duplication, was equal to \$52,361 per mile of line.

Mile of Line Subsidies.

Cash subsidies during the year amounted to \$1,789,723, bringing up the total to \$140,392,087 by the dominion, \$55,872,040 by the provinces and \$17,083,823 by acres of land have been granted, of which 3,200,378 were allocated by the dominion.

Guarantees to June 30, amounted to \$127,336,357. Public service of Canadian railways was represented in the carrying of 35,804,573 passengers and 74,488,866 tons of freight, an increase over 1909 of 1,211,257 passengers and 7,609,608 tons of freight.

Gross earnings for 1910 were \$179,956,717, a gain of \$8,899,881 over 1909, or 5 per cent.

Operating expenses amounted to \$120,005,446, an increase of \$18,805,336. Net earnings were \$59,951,277 or 33.3 per cent. better than for the preceding year.

Six hundred and fifteen persons were killed in 1909, and 2,130 injured. Of these, 524 were killed and 1,441 injured from movement of trains. The killed included 60 passengers and 214 employees.

Accidents at highway crossings during the year resulted in 65 persons being killed and 61 injured.

The 123,768 employees involved a

wages and salary bill of \$65,167,291 as compared with \$63,216,662 in 1909. Mileage of electric railways grew from 686 in 1909, to 1,249 in 1910. Capital liability increased from \$91,604,989 to \$102,044,979. Gross earnings reached \$179,956,717, a betterment of \$2,757,863.

"SIX-SHOOTER KATE" FREE

Woman Who Captured Convict is Given Decree

Spokane, Wash.—Mrs. M. Fromberg, known all over the northwest of Idaho, as "Six-Shooter Kate," frontiers-woman and nurse and rancher, was granted a decree without alimony in her action for divorce in the Spokane Superior court. Judge J. Stanley Webster presided. This ends a romance of the hills that began a year ago, when the young woman reined her horse at the door of Fromberg's cabin, near Wallace, and asked for food and shelter. Fromberg guided her to the home of a neighbor where she remained three days.

Soon afterward Fromberg received a letter from a lawyer saying that his client insisted upon marriage or compensation for her bruised affections. The wedding followed three days later and, according to the testimony Fromberg, reputed to be a good-natured farmer, started to make things lively for the robust spouse, the result being that she came to Spokane, and, after acquiring legal residence, instituted proceedings for divorce. Mrs. Fromberg was named "Six-Shooter Kate" by an ex-convict, whom she captured single-handed and delivered to the authorities of Idaho.

YUGMEN AT WORK

Minneapolis, Dec. 17.—Yugoslavs successfully held the safe in Wynton Chicago county post office for the third time early this morning and escaped with \$200 in money and \$9 in stamps. They are being pursued towards Minneapolis by an armed posse in automobiles.

Building permits, up to and including the 17th of December, total \$4,600 as compared with \$8,250 in 1917 and \$4,430 in 1919.

J. Gagnon and wife of Athabasca Landing, also John Henry of Vaughn, are leaving this afternoon for the Province of Quebec.

James Huxley, a local baker will appear before the court this afternoon on a charge of selling loaves of bread which were not up to the required weight.

J. L. Lesard, merchant of Athabasca Landing, who spent a few months in the Province of Quebec, came in last week, and will return by stage in the morning for the north.

In police court this morning one Walter Ponchey came up for trial on a charge of stealing a pair of gauntlet gloves from Tart Brothers. He was remanded until 3:30 tomorrow afternoon.

A special meeting of the Edmonton Builders Exchange, to nominate officers, will be held this evening. The election of officers will take place on Dec. 27th.

A meeting of the Edmonton exhibition directors is to be held this evening, to hear the report of secretary Harrison on his trip east, and to decide as to the erection of new buildings for next year.

The annual bal poudre of the Western 110 chapter, Daughters of the Empire, will be given in Separate school hall, Friday evening, Dec. 10th. The officers of the various regiments are co-operating with the members of the chapter, and the ball promises to be more attractive than ever before.

The power house at the new Alexandra Hospital has been completed, and the boilers are being stalled this week. The main building is progressing slowly. The winter will be occupied in getting material on the ground, in order that the construction may be rushed in the spring. It is hoped to have occupancy before fall.

At the regular meeting of the council of the W.C.T.U. on Wednesday at the W.C.A., a very encouraging report of the work of the organization was given. Mrs. Burck, the president was in the chair. The report of the penitentiary work, was especially encouraging. The local council has gained a prize for being the best organized branch in either Saskatchewan or Alberta. Miss Edmonds, appointed representative on the local council of women.

Travelling passenger agents, and city agents were in social session at the Castle hotel on Saturday evening when eight of their number were entertained at a goose and wild duck dinner, by W. H. Snyder, travelling passenger agent of the Burlington route. The others present were: Mr. Cameron, Northwest line; Winnipeg; W. N. Skeay, O. R. and N. Spokane; P. H. Scanlon, C. M. and P. road; H. J. Murphy, C. P. R. Calgary; J. L. McKinnon, C. N. R. Winnipeg; W. B. Latz, Son Line, and W. C. Dicks, city passenger agent C. N. R.

Bert O'Brien appeared before Magistrate Cowan this morning charged with stealing a gold filled watch from a lodger at the Royal Temperance Hotel. It is alleged that after taking the watch O'Brien took it to Klenz, jewelry store where he tried to sell it but his negotiations resulted in a row during which he accused Mr. Klenz of stealing his watch. As a result they both journeyed to the police station and consoling to be searched the watch was found on O'Brien and he was immediately locked up. He was committed for trial.

BARS HEEL FOR SPANKING

New York, Mrs. John Bahner was in court today charged with hitting her thirteen-year-old daughter, Francis, with the heel of her slipper, causing a flesh wound on the girl's forehead. Magistrate Preschi, noted for his Solomonlike decisions, was certain the punishment was inflicted in a spirit of loving kindness, so he discharged Mrs. Bahner in the following words: "In using the maternal slipper for child discipline, chastisement ends at the instep and assault begins at the heel."

Leod, a young man who died in the Edmonton hospital Wednesday from pneumonia, was held Friday from Taylor's undertaking parlors, burial being made in the Strathcona cemetery. McLeod, who was but 29 years of age came to this city only recently from Seattle and had worked but a short time with a local contractor, until he was stricken with illness which terminated in pneumonia. The young man was a giant in stature, weighing six feet and a half in height. The home of the deceased was in P.E.I. A brother works at the Clover Bar mines.

The East Edmonton school concert is billed for the night of Tuesday, Dec. 20 in the school house. One distinguishing feature of the concert will be the sale of brooches and pendants which are made from the copper of Nelson's flag ship the "Victoria".

Ald. and Mrs. Bush left by the mid-eight train Friday for Vancouver and Victoria where they will visit some time prior to going on to California, where they will spend a couple of months.

Mr. and Mrs. H. A. Powers went east this week on a vacation trip to Pictou, Ontario, where they will visit with relatives and friends for several weeks.

S. O. S.

A concert and lecture will be held under the auspices of the Black Watch camp No. 22 in the Separate school hall on Tuesday evening, the 20th inst. Major Griesbach, 10th A. M. R. will deliver a lecture that evening on "His experiences in the Late South African War". This is the first time that a lecture on that subject has been given in this city. It is up to the citizens of Edmonton, of all sexes, to turn out in large numbers and do honor to one of their number who so nobly and loyally answered Canada's call to help the old country. This lecture should appeal strongly to the members of the veteran corps, the military element and those who served through the war. Through a few years have passed since the war, the great loyalty and patriotism shown then by all Canadians is still in our midst and

Why not books for Xmas? See Douglas Co.'s immense display of fine gift editions.

United Xmas Gifts

Very often all of the members of a family unite in making one gift for the home. There is no nicer, or more sensible form of gift-making

Take for instance:

- A Cabinet of Silver \$35.00 to \$100.00
- A Tea Set \$10 to \$50.00
- A solid Mahogany Tray with Silver Handles \$16.50
- Bronze Electroliers \$25.00
- Cut Glass Lamp \$90.00

THE CANADIAN BANK OF COMMERCE

The annual statement of The Canadian Bank of Commerce has been issued showing the results of the business of the bank for the year ending 30th November 1919. The profits for the year, after the usual deductions, amount to \$1,838,665, or 18.38 per cent on the paid up capital of \$10,000,000. This is the best showing made by the bank in its history. With profits of \$722,139, carried forward from last year, total profits of \$2,560,804, are available for distribution. The stock of the bank has been on a nine per cent basis during the past year, and \$900,000 has been required for dividends. The Reserve Account has been increased by \$1,000,000 and now stands at \$7,000,000. \$300,000 has been written off Bank Premises, leaving \$310,200 to be carried forward. While the shareholders of the bank have benefited by the exceptionally favorable showing, the bank's officers have also received consideration. Liberal bonuses having been granted to the members of the staff. The Pension Fund has been increased by \$50,000 and discounts show an expansion of \$22,547,000 since 30th November 1918, and now amount to \$1,212,000. During the same period deposits have been increased by \$31,790,000 and are now \$1,268,344,553.
